EXPERIENCE

QA Intern

Tapass, Noida

Aug 2023 – Apr 2024

- Implemented various functionalities using JQuery and React
- Designed and implemented the payment portal
- Actively collaborated with the Testing team to identify and resolve website bugs, ensuring a seamless user experience.
- Successfully migrated code from legacy systems to GitHub, enhancing team collaboration.

PROJECTS

Project Management App

react, tailwind css, javascript

- Developed a project management application to streamline task organization.
- Implemented ToDo lists, new project creation and project deletion features.
- Learned and applied React best practices, managing props drilling and using hooks like useEffect, and useRef for efficient state management.

Tic-Tac-Toe Game

javascript, react, css

- Implemented game logic in JavaScript, designed UI with React, and styled using Tailwind CSS.
- Enhanced skills in component-based architecture and responsive design.

The Almost Final Countdown

react, javascript, tailwind css

- Developed 'The Almost Final Countdown' game using React to create an engaging timer-based challenge experience.
- Implemented multiple difficulty levels with specific target times using React components.
- Learned to maintain a lean and manageable App.jsx file by effectively organizing components.

Investment Calculator

react, javascript, tailwind css

- Developed a financial calculator app using React to simulate investment scenarios based on user inputs.
- Utilized React hooks like useState for managing state and facilitating real-time user input updates.
- Focused on improving usability with clear data visualization and interactive components.

EDUCATION

B.Tech in Civil Engineering

KL University,Vijayawada

July 2017 – May 2021 CGPA : 7

Intermediate, CBSE

BGS.Intl.Res.School, Bangalore

June 2014 – May 2016

Metriculation, CBSE

Govt.Higher Sec School, Likabali

June 2014

SKILLS
